

# אכילת דגים EATING FISH

It is a custom to eat fish at the Shabbos meals. One reason for this is that just as fish cannot survive without water, so the Jew cannot survive without Torah, which is compared to water. Many Jews have

more time to study Torah on Shabbos. Eating fish also reminds us of the Livyoson, the great fish we will enjoy in Olam Haba, the time which will be like a Shabbos that lasts forever.
